SETTLES WITH THE CITY.

Democratic County Committee Pays

The exposure of the Democrats' method of renting Tomlinson Hall for \$40 a night, while the Republicans had to pay \$60, as made in the Journal a week ago, has had a good effect on the city revenues. Since that time the Democratic committee has paid over its share of the silver barons'

money and has settled its indebtedness to the city.

It then developed that the committee had not paid for the use of the hall for its county convention, which was held July 22.

GEORGE W. JULIAN'S SPEE It was not until this week that the money was forthcoming. The stub of the receipt shows that the committee paid \$199 for the use of the hall for the convention, \$20 to make up the deliciency for the use of the hall Sept. 15, for which night the original charge was only \$40, and \$50 for the use of the hall next Saturday night.

OHIO SENATOR SPEAKS FROM DENI-SON HOTEL BALCONY.

His Big Meeting at Frankfort-An In terview with Him-Thomas B. Reed's Voice Gives Out.

Senator Foraker, of Ohio, arrived in the city at 6:30 last night on a special train from Frankfort, where he held a big meeting during the afternoon. There were many citizens at the Union Station to greet him as he left the train. The Marion Club was there with the When band to escort the Senator to the Denison House. The club made a fine showing in white duck trousers and dark coats, and was greeted with cheers on the way to the station. Senator Foraker and the committee which went to Frankfort to escort him to this city entered a carriage and headed the procession to the Denison, where a crowd of considerable proportion had assembled to greet the distinguished Ohioan. He was not allowed time to rest or get a bite to eat, for the people assembled were clamoring for a word from him. Senator Foraker responded promptly by going to the balcony of the hotel and facing the crowd, which had filled the street to such an extent that the street cars were compelled to stop for a while. His appearance on the balcony was the occasion for hearty applause. Gen. John Coburn then stepped forward and in a few words introduced the speaker, who said at the outset that he was compelled to take warning in time and refrain from doing much talking in the open air after night or he might soon be unable to do any work at all for his party. For that reason his remarks were short. He said:

"My Fellow-citizens I have not come out here for the purpose of making to you any remarks that would be proper to characterize as a speech. I have simply come to thank you for your kindly greeting; and I would thank especially the Marion Club for coming down to act as a special escort. The courtesy was unexpected, but, never-thless, appreciated in the very highest de-

"I congratulate you that we are nearing teh close of what is not only an important, but in every essential sense of the word, a most successful political contest. (Applause.) On the 3d day of November, if I read the signs aright, the American people will speak in no uncertain terms for Mc-Kinley, protection and sound money. (Applause.) I congratulate you that the evidences are so conclusive as you make them, that in this march to victory Indiana proposes to keep abreast with the other great and progressive States of this Union.

"I would be glad to talk to you, my fellow-citizens, about these political questions if we were so situated as to permit of my doing so with any comfort either to myself or to you. But you can readily see myself or to you. But you can readily see that that is not at all possible, situated as we are; and, therefore, I propose to ask 'you to excuse me, simply again thanking you for the compliment of this call, and expressing the hope that at this election you will not only roll up a great majority for McKinley, but also for your Governor (Applause and cries of 'We will!'); and especially that you will. pecially that you will see to it that we have in Indiana a Republican Legislature that will choose a Republican United States Senator (applause); and that you will send to Congress a Republican to represent you in this capital district of the State of Indiana. (Applause and cries of 'We will do it!)'

Governor McKinley cannot do much in the White House to satisfy the expectations of the people of this country, unless he is supported by a Republican Congress. We propose to do our duty by him in that regard in Ohio—

know you will do your duty by him here Indiana. (Applause.) "It may be not without interest to you for me to say that I am just returning home after a somewhat protracted campaign in the Western States. I have been to Iowa; I have been to Nebraska; I have been to Kansas and clearly the same of been to Kansas, and elsewhere; and wher-ever I have gone I have found the American people determined that this year they will so vote as to return this country to where it was in 1892 (applause); that they will so vote as not only to secure pros-perity for the American people, but to pre-serve untarnished the name and honor of the American Republic. I thank you."

the American Republic. I thank you."
(Applause.)
The crowd present expected to hear a few words from Thomas B. Reed, of Maine, but in this they were disappointed, for telegrams from Fort Wayne earlier in the day stated that Mr. Reed was confined to his hotel and had been compelled to cancel his engagements for Cambridge City yesterday and for Feru to-day. His voice had given out entirely and yesterday morning he was unable to speak above a whisper. He went unable to speak above a whisper. Senator Foraker made a masterly discus-

sion of the issues on the public square, but only a small portion of the vast throng could get within hearing distance. He handled the financial and tariff questions

in such a manner as to convince both Dem-

The audience was very attentive, and there was an absence of the constant humming of voices so common to political gatherings. During the speech the audience frequently burst into applause, which was for the moment deafening, but died away as suddenly as it came, showing that the audience was intensely interested in the words of the speaker, and while enthusiastic, did not want to miss a single sentence. A sympathetic feeling seemed to exist between the speaker and the audience, and instead of the distance which sometimes characterizes public addresses, Mr. Irish seemed to be talking to a congregation of acquaintances. Towards the close of his speech he stopped and looked at his watch. "Keep on!" "Talk all night!" were the various shouts that came from all over the room. Is there a Methodist in the State of Indiana who would leave his doctrine other declaration at right angles to such line with it, absolves every man devoted and prevents them from supporting the declaration of such a body.

POPOCRATS CONTROL IT. "Why talk about regularity? Regularity has been the cry in the State of Indiana to whip Democrats into line whose consciences are in daily and nightly revolt against the Populistic declaration of Chicago. And to what feast of regularity are you who have stood in line invited now? Your State committee is empowered to do nothing but organize and conduct a campaign. Your Bryan-Populistic State committee in the State of Indiana is authorized to do nothing about the ticket nominated by the convention of the party except to fill vacancies that might occur by death or resignation in that ticket; and then to fill those vacancies with Democrats, and not the members of any other party. That committee, at the dictation of this Populist so-called Democratic national committee, at the dictation of the Populist party per se of the State of Indiana, has left out five men who were Democrats on your electoral ticket and has put in their places five men who belonged to that class of men once members of one or the other of the old parties who let their hair grow long (applause) and went into the heresles of Populism. And now all your so-called Democratic State committee are invited to place them on your ticket, and for them you have to vote. Talk of regularity! That State committee might just as well have effected it by force and violence-and I am told that violence had almost to be used on my old friend Jason Brown (laughter and applanse)—and I am told that the road be-tween Indianapolis and Jason's home looks at this moment like a cyclone had passed over it (laughter), so thoroughly had Ja-son's temper, not to say his blasphemous comments on the proceeding, blasted every green thing that lay in his track. (Laughter and applause.) By force almost these men have been removed and five Populists put in their places. It simply illustrates, my fellow-Democrats, the danger of set-ting your feet by one hair's breadth outside the safe, well-worn and beaten path of Democratic principle (applause), when once you go back on the work of the fa-thers, when once you surrender the principles in which you were taught, which you have loved and which you have followed cheerfully either to victory or de

In the State of Washington he has forced them to surrender the Democrate name, and the organization in Washington is known as Populist party. He has forced them in the State of Oregon to surrender the Democratic name and appear as Populists purely. He has forced them in the State of Michigan to dilute by elongation the rame of the Democratic party, calling it the "Democratic People's Free-silver Party." (Laughter and applause.) objection of every Democrat to that platform, is that it is undemocratic from preamble to finish. It makes only two allusions to anything that has been heretofore held by the Democratic party, and those allusions are either evasive or cowardly. "It is true it refers to the Monroe doctrine, a doctrine declared in 1824 by the administration of Mr. Monroe, but left unconstrued. An attempt was made during the lifetime of Monroe, through the administration of John Quincy Adams, his successor, who had been his State, to construe the Monroe doctrine in the instructions proposed to be given by Congress to the United States delegates to what was called the Panama Congress, to be held in the city of Panama, composed of delegations from the American nations, to consider interests mutual and common to them-a Congress which, by the way never met. And John Randolph fought duel about it and that was the only pow-der ever burned on the Monroe doctrine until under the weight of that, Maxmillian went down and the toy empire he had sought to found in Mexico fell with him.

That doctrine remained unconstrued until the captain and commander of this Democ racy-the man who led up to success at the ballot box and to a triumphant victory by a large majority of the Electoral Colege in two campaigns-the Monroe trine remained unconstrued until that cap-tain and commander gave it expression which goes into history; and the Monroe doctrine with the Cleveland construction is the doctrine. (Applause.) The party that met at Chicago, referring to the Monroe doctrine, had not the manhood and the courage and the American sense of fair play to give to this captain due credit for having given vital force and interpretation to that doctrine THE FEDERAL POWER. "The convention at Chicago, amongst its other planks, adopted one denying to the

federal government the right to enforce federal law by federal power without the assent of the State within whose borders that law might be violated. How does this affect you and me? This is a campaign in which we discuss fundamental propositions. We want to know how the deliberations of that platform affect our government if they be crystallized into law and, affecting our government, how do they affect us? That platform denies to the federal government the right to enforce federa laws within the borders of a State when the same is violated without the consent of that State. That is a renewal of the doctrine of nullification that oc-curred in South Carolina in 1832 under the "The candidate of the Populistic convention at Chicago in nearly every speech he makes attempts to identify the great name and memory of Jefferson with the heresies of that platform. Why, in 1832 the nuilifiers of South Carolina sought to identify Jefferson with that constitutional heresy. While holding a banquet in Washington city, on Jefferson's birthday, Calhoun sat at one end of the table, Jackson, the President of the Republic, at the other; Calhoun proposed a toast to the memory of Jefferson, identifying Jefferson with South Carolina and her effort at nullification.

Andrew Jackson rose at the other
end of the table, holding high
his glass of bright wine and his glass of bright wine and uttered this sentiment which from then until now has been one of patriotism and manhood in every nation on earth where that phrase of Jackson has been repeated: By the eternal, the federal government shall be preserved.' (Long applause.) That was the answer of the Democratic party through the mouth of its captain to nullification in 1832; that has been the position of the Democratic party on nullification from then until now, elaborated as that sentiment was in Jackson's message to Congress in answer to the challenge of the nullification committee of South Carolina. And this so-called Democratic convention at Chicago renews that nullification Mr. Irish then illustrated with a Japanese

yen, a Mexican dollar and a gold piece, the fact that the value of money was based on its commercial worth and that this in turn was regulated by its bullion value, saying: "A gold coin is worth the amount stamped on its face by the government, be cause the government stamp is a certificate that the gold is so many grains and of such a fineness; and that banks receiving gold count it not by the name it bears, but by the weight of it, thus keeping it always at its natural or bullion value, while silver received at the rate stamped on its face. In fact, a silver dollar may have the cheek of the Goddess of Liberty worn down so far as to make it impossible for her to blush, and yet it is a dollar-because it has the stamp of a dollar and because there is

JOHN P. FRENZEL'S ESTIMATE. Bryan Cannot Get More than 130 Electoral Votes. Richard Lieber, city editor of the In-

diana Tribune, has just returned from Chicago, where he went to take a look at the headquarters of the different political parties. He was in Chicago on a day of great political importance there, a day of registration. Last Tuesday was the first day of registration, and the same day of next week is the last day. On the basis of the result of the first day's registration-293,048 voters-the entire number of Chicago's voters is estimated at 418,000, a higher number than that of any other city of the United States. Last year New York registered 281,-008 voters, or about 11,000 less than Chicago, in one day. A comparison shows that the entire vote of New York in 1892 was 284,824, or about 8,000 votes less than Chicago's registration thus far. "These comparisons give the Chicagoans the utmost pleasure and pride," said Mr. Lieber, "and you can hardly start any sort of a talk without having your attention called to the fact that 'We are going to beat New York all to pieces,' an expression which is modulated in all kinds of variations, according to the speaker's education. A visit to the different headquarters

and knowledge characterizes the Popocratic headquarters. The Palmer House contains the workshop of the gold Democrats, and it is not too much to say their unselfish, steadfast work for principles and a patriotic cause entitles them to the name of National Democrats. "John P. Frenzel, the secretary and treasurer of the national committee, gives the following forecast: For Bryan-Virginia, 12 electoral votes: South Carolina, 9; Georgia, 13; Florida, 4; Tennesse, 12; Arkansas, 8; Colorado, 4; South Dakota, 4; North Dakota, 3; Washington, 4; Utah, 2; Montana, 3.
